## Technical Specification Data Sheet

<b>Product</b>	Woodlands 4.5Kg Dry Chemical Powder Type Fire Extinguisher
<b>Supplier</b>	Woodlands Fire

### Product Details:

- Introducing the robust 4.5kg extinguisher, a stalwart in fire safety for diverse environments. While slightly smaller than its 9kg counterpart, this extinguisher packs a powerful punch, offering reliable protection against Class A, B, or C fires, or any combination thereof.
- Perfectly suited for mixed fire risk environments, this multi-purpose extinguisher is a dependable choice for safeguarding against various potential fire sources. From the protection of liquids to the storage of liquid gases and heating oils commonly found in industrial settings, garages, and workshops, its utility knows no bounds.
- With its compact yet powerful design, the 4.5kg extinguisher stands as a reliable guardian against fire emergencies, offering peace of mind and swift action when every second counts.

### Product Specifications:

- Charge: 4.5kg
- Full Weight: 7.27kg
- Empty Weight: 2.77kg
- Cylinder Length: 358mm +-2mm
- Cylinder Outside Diameter: 160mm +-1mm
- Working Pressure: 1400kPa
- Hydrostatic Test Pressure: 2700kPa
- Bursting Pressure of Cylinder: >5500kPa
- Safety Device: 2100 ~ 2600kPa
- Discharge Time: 10 sec
- Range of Discharge: 4m
