7th September 2026

Dear Customer,

Right Angle Hydrant – Spindle Square Shroud.

It has been brought to our attention that Woodlands Hydrants are being fitted with a shroud to cover the square of the hydrant spindle to stop the hydrant from being illegally accessed and water stolen.

This shroud is aimed to stop access via the hydrant T-Key or any other form of “made-up” hydrant key.

This shroud is designed to be opened with a specialised key, which Woodlands does not supply nor manufacture.

ANY ITEM FITTED TO A WOODLANDS FIRE HYDRANT, THAT HAS NOT BEEN MANUFACTURED BY WOODLANDS FIRE WILL BE VIEWED AS AN AFTERMARKET MODIFICATION AND THE EFFECTIVENESS AND WARRANTY OF THE WOODLANDS PRODUCT CAN NO LONGER BE GUARANTEED.

WOODLANDS ENGINEERING WILL NOT TAKE ANY RESPONSIBILITY FOR A FIRE HYDRANT FAILING DUE TO AFTERMARKET PARTS THAT HAVE NOT BEEN MANUFACTURED BY OURSELVES BEING FITTED TO ANY OF OUR HYDRANTS.

IF A WOODLANDS HYDRANT HAS A SPINDLE SHROUD FITTED TO THE SQUARE, AND YOU WISH TO ACCESS THE WATER, PLEASE CONTACT THE PERSON/COMPANY THAT SUPPLIED THE SHROUD OR THE MUNICIPALITY AND ENQUIRE FROM THEM DIRECTLY AS TO HOW TO GO ABOUT ACCESING THE HYDRANT.

Should you have any queries please feel free to contact us.

Sincerely,

Noel Cockin
Director

A handwritten signature in black ink, appearing to read "Noel Cockin", written over a white rectangular area.
